To Whom It May Concern

Re: Insession

In the many years that our international association has held its annual Convention and Trade Exhibition we have had the opportunity to work with numerous professional conference organisers.

I have had the honour to be responsible for heading our group in this significant endeavour and in fact have been the Master of Ceremonies of our Convention for over 20 years.

We recently concluded our 62nd ISSA Convention and Trade Exhibition in Athens, Greece and worked closely with the Insession Group.

I wish to be on record that there is no more professional group that we have had the pleasure of working with than Insession.

I would heartily recommend them to any group or organisation mounting a similar project.
